

Raja Bhaiyya Singh Yadav, Auto Rickshaw Driver

No fixed abode | (91) 99876 32487 | (91) 93421 00563 | (91) 96155 42988 | (91) 92437 88760

ACADEMIC RECORD

INTERNSHIPS

Farji Workshop (1990 - 1996)

- Learnt how to **quickly program** an auto meter to go fast
- Successfully achieved proficiency in setting **over five different fast speeds**, used for passengers with different ages, physical strengths and eye powers

EMPLOYMENT

Owner, MA 0420 (Rickshaw) (2001 - present)

- License to **lie, cheat and steal** without being Eddie Guerrero

SPECIAL SKILLS

Maximum distance - discoverer

- **Independently** discovered the algorithm to find the **maximum possible** distance between two points (present location and destination), along with my brethren in the same business
- Can use this revolutionary algorithm to show an **unwary passenger the sights of the city** for less than a professional tour would charge - OK, the same amount
- This algorithm works better for **foreigners** and people who don't know the local language

Acting

- Can pretend to **not know** where a destination is as well as Naseeruddin Shah could
- Can refuse to go to an obviously known destination by offering **innovative arguments** such as *Mujhe ghar jaana hai*
- Can bring the ***I got a wife and kids*** expression to face immediately while negotiating for extra payment over the already fast meter

Change resistor

- Has **conserved metal** by always refusing to keep change like Re 1, Rs 2, Rs 5, etc.
- By this brave move, has helped **mathematicians** prove that $7 = 10$, $8 = 10$ and $9 = 10$, because the minimum amount to be paid always becomes Rs. 10 even for a two minute ride

SPECIAL DISTINCTIONS

- Appeared with **Himesh Reshammiya** in His film *Aap Ka Surroooooor - the real love storieeee* as one of only **150 autorickshaw drivers** randomly selected from all over the world; at one point came within **5 feet** of Himeshji
- As a direct consequence of the above, have met **God**
